

## UPPER SILESIA SCHOOL OF ULTRASONOGRAPHY

# Course: "Ultrasound in Regional Anesthesia" **27–28.04.2019, Chorzów, Poland**

## We love ultrasound and we love to teach!

We present a systematic didactic approach to master ultrasound guided procedures and interventions. We start with superficial anatomy and then, step by step, we move on to an axial view on anatomic slices with clearly illustrated landmarks. Standardized scanning procedures help to identify the target structures. Illustrations and 3D-animations support safe and successful procedures.

Together with our dearest colleagues from Poland, we have prepared a program for you which is designed to provide all skills you need for ultrasound–guided procedures. Just get ready and start on the following Monday!

Probe handling, sonographic anatomy and needle tip control are the three preconditions for safe and successful ultrasound–guided procedures. These are our learning aims. We will have tips and tricks for beginners and advanced users.

Join us for the two exciting days. We are looking forward to welcoming you in Poland.

### **Faculty:**

#### **Wolf Armbruster**

MD, PhD, Department Head Anesthesia Clinic, Evangelisches Krankenhaus Unna, Germany

#### Rüdiger Eichholz

MD, Chief Consultant Anesthesiologiy, medizi. Stuttgart, Germany

#### **Ewa Chabierska**

MD, Sport Cinic, Żory, Poland

#### **Jarosław Kurak**

MD, PhD, ESRA Council Member, Saint Lucas Hospital, Piekary Slaskie, Poland

#### Andrzej Daszkiewicz

MD, PhD, Medical University of Silesia in Katowice, Poland

#### **Wojciech Gola**

MD, EDRA, Saint Luce's Hospital, Konskie, Poland

#### Sławomir Mika

M.Sc, CEO of Upper Silesia School of Ultrasonography, Medica LLC, Poland

## Course and workshop will be held at:

Conference room of Upper Silesia School of Ultrasonography in Chorzow Gałeczki 54 Str. Poland Application form and further information available on our website:

www.gsusg.pl

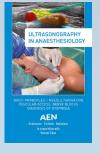

### **DAY I** 27.04.2019

| 07:30 - 08:00   | Registration  |
|---|---|
| 08:00 - 08:30   | Welcome   |
| 08:30 - 08:50   | Lecture 1: Basic principles 1   |
| 08:50 - 09:20   | Hands-on 1: Setting option in ultrasound machine, image optimization  |
| 09:20- 09:45  | Lecture 2: Needle navigation  |
| 09:45 - 10:15   | Hands-on 2: Needle-ultrasound beam coordination skills (at the phantom)   |
| 10:15 - 10:45   | Lecture 3: Basic principles   |
| 10:45 - 11:00   | Coffee break  |
| 11:00 - 11:30   | Lecture 4: Safety in regional aesthesia (A. Daszkiewicz)  |
| 11:30 - 12:00   | Lecture 5: Anatomy of the brachial plexus (practice with Anatomage Table)   |
| 12:00 -12:30  | Lecture 6: Blockades around the clavicle – Interscalene, Supraclacicular  |
|   |   |
| 12:30 - 13:00   | Lunch   |
| 12:30 - 13:00<br>13:00 -13:30   | Lunch  Hands-on 3: Blockades around the clavicle (Interscalene, Supraclacicular)  |
|   |   |
| 13:00 -13:30  | Hands-on 3: Blockades around the clavicle (Interscalene, Supraclacicular)  Lecture 7: Blockades and central lines around the clavicle (Infraclavicular block,   |
| 13:00 -13:30<br>13:30 - 14:00   | Hands-on 3: Blockades around the clavicle (Interscalene, Supraclacicular)  Lecture 7: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  Hands-on 4: Blockades and central lines around the clavicle (Infraclavicular block,   |
| 13:00 -13:30<br>13:30 - 14:00<br>14:00 - 15:00  | Hands-on 3: Blockades around the clavicle (Interscalene, Supraclacicular)  Lecture 7: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  Hands-on 4: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  |
| 13:00 -13:30<br>13:30 - 14:00<br>14:00 - 15:00<br>15:00 - 15:15                                   | Hands-on 3: Blockades around the clavicle (Interscalene, Supraclacicular)  Lecture 7: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  Hands-on 4: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  Coffee break  |
| 13:00 -13:30<br>13:30 - 14:00<br>14:00 - 15:00<br>15:00 - 15:15<br>15:15 - 15:45                  | Hands-on 3: Blockades around the clavicle (Interscalene, Supraclacicular)  Lecture 7: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  Hands-on 4: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  Coffee break  Lecture 8: Axiilary brachial plexus block & peripheral nerve blocks   |
| 13:00 -13:30<br>13:30 - 14:00<br>14:00 - 15:00<br>15:00 - 15:15<br>15:15 - 15:45<br>15:45 - 16:15 | Hands-on 3: Blockades around the clavicle (Interscalene, Supraclacicular)  Lecture 7: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  Hands-on 4: Blockades and central lines around the clavicle (Infraclavicular block, subclavia vein, brachiocephalica vein)  Coffee break  Lecture 8: Axiilary brachial plexus block & peripheral nerve blocks  Hands-on 5: Axiilary brachial plexus block & peripheral nerve blocks |

Cost of individual course: 390 €

### The price includes:

the book - Ultrasonography in Anaesthesiology for free, training materials, lunch and coffee during a workshop, parking, wireless internet.

## Ultrasonography in Anaesthesiology

This new pocket–sized book written "from clinicians for clinicians" is a perfect guide for beginners and professionals for their daily work in the operation theatre and on the intensive care unit.

### **DAY II** 28.04.2019

| 08:45 - 09:00 | Welcome   |
|---------------|---|
| 09:00 - 09:45 | Lecture 1: Anatomy and innervation of the lower extremity (practice with Anatomage Table)                       |
| 09:45 -10:30  | Lecture 2. Blockades in the lower extremity (femoral n., adductor canal block, fascia iliaca compartment block) |
| 10:45 - 11:15 | Hands–on 1: Femoral nerve block, fascia iliaca compartment block.   |
| 11:15 - 11:45 | Hands-on 2: Saphenous nerve – where is the adductor canal?  |
| 11:45 - 12:15 | Hands-on 3: Repetition: Femoral nerve block, saphenous nerve, fascia iliaca compartment block.                  |
| 12:15 - 12:45 | Lunch   |
| 12:45 - 13:15 | Lecture 3: Blockades in the lower extremity (sciatic nerve blockades)   |
| 13:15 - 13:45 | Hands-on 4: Distal sciatic nerve blockades  |
| 13:45 - 14:15 | Hands-on 5: Proximal sciatic nerve blockades  |
| 14:15 –14:45  | Lecture 4: Ankle blockades  |
| 14:45 – 15:15 | Hands-on 6: Ankle nerve blockades   |
| 15:15 - 15:45 | Lecture 5: Truncal blocks (TAP, liN, lhN, Rectus Sheath)  |
| 15:45 – 16:15 | Hands-on 7: TAP, IiN, IhN, Rectus Sheath  |
| 16:15 - 16:45 | Lecture 6: Truncal blocks (QLB)   |
| 16:45 – 17:15 | Hands-on 8: QLB   |
| 17:15 -       | Quiz, Putting it all together, Certificates   |
|               |   |

## **Workshop Partners:**

The course will be held in Chorzów (Silesia Region, Poland) at the headquarters of Upper Silesia School of Ultrasonography, the largest ultrasound school in Poland, with modern equipment facilities and great location.

Silesian Metropolitan Area is located in the south-west of Poland, which can be reached very easily and quickly from practically every part of Central and Eastern Europe by car, train or plane.

## **Workshop Partners:**
